

Notification

Official Notice & Alert Document

CORRESPONDENCE
TYPE

What is a Notification?

A Notification is a formal document issued to inform relevant parties of an important event, change, requirement, or decision that requires their awareness or action. Notifications are time-sensitive and often carry contractual or legal significance within a project.

Document Code:	NTF-XXXX
Issued By:	Issuing party / Authority
Addressed To:	Notified party / Organisation
Notification No.:	Unique reference number
Date of Issue:	Date the notification is issued
Subject:	Nature of the notification
Response Required:	Yes / No — with deadline if applicable

Key Elements of a Notification

- Notification Number — Unique identifier for tracking
- Nature of Notice — Type of notification (e.g. Delay, Change, Defect, Instruction)
- Event Description — Clear explanation of what is being notified
- Contractual Clause Reference — Relevant clause that triggers the notification
- Impact Assessment — Effect on time, cost, or quality (if applicable)
- Required Response — Action expected from the recipient
- Deadline — Date by which a response or action is required
- Authorised Signature — Official sign-off

Types of Notifications

- Notice of Delay — Informing of schedule overruns
- Notice of Change — Alerting scope or design modifications
- Defect Notification — Reporting quality or workmanship issues
- Contractual Notice — Formal notices under contract clauses
- Safety Notification — Urgent safety-related alerts or warnings
- Notice to Proceed (NTP) — Authorisation to commence work
